INTRODUCTION

Background

We at Symatech Labs Limited believe great software solves great problems. Our software development journey started from humble beginnings to a point where we caught the attention of notable institutions like the **ILO** (International Labour Organisation) , **Magical Kenya , Nairobi County Government** and other reputable companies.

Vision

From inception , our main purpose was to make great software and it has never changed. We obsess a lot on not only how the software works but most importantly how it looks. This together with innovating where many think it's impossible and taking all projects whether big or small with the same amount of vigor. Our responsibility is to give more than what the customer expects from us.

Mission

Our mission is to make technology a solution to your business and not a problem.

Values

- Quality
- Integrity
- Confidentiality

BUSINESS CONCEPT

Capability Statement

Core Competencies

- Desktop Software Development
- Android Application Development
- iOS Application Development
- Windows Phone Application Development
- Management Information System Development
- USSD and SMS System Development
- Network Planning & Design
- Fibre Optic Installation

Past performance (This List is not Exhaustive because of NDA's we sign)

Software Development

1. Kenyan Constitution App (400k+ downloads)

The Application segments the various sections of the Kenyan Constitution i.e Chapters , Articles , Schedules and Preamble to make navigation easier. Get the App for free at the Google Play Store here. It has also been featured in major media houses i.e Business Daily (<http://goo.gl/zU5jaD>) and Kachwanya.com (<http://goo.gl/gfiEpl>). Link to the App : <https://goo.gl/leXKvl>

2. Longhorn Kamusi ya Karne ya 21 mobile App (150k+ Downloads)

Longhorn Publishers is a renowned Book Publishing company in Kenya. They wanted to digitize their Kamusi into a mobile application, we were contracted to undertake the project. Link to the Play Store : <https://goo.gl/IRL3Za> . This is coupled with a Content Management System which exposes an API to the Mobile Application.

3. Longhorn Kamusi Kuu ya Kiswahili (200k+ Downloads)

Longhorn Publishers is a renowned Book Publishing company in Kenya. Kamusi Kuu Ya Kiswahili android application is a unique digital product of Longhorn Publishers Limited in partnership with BAKITA. The application has been integrated with a variety of functionalities and interactive content to ensure the needs of the end users are met. For instance, all words have been categorized under the eight(8) categories of Kiswahili. Groups such as methali, misemo and nahau have also been segregated and categorized separately to ensure maximum utilization. Link to the Play Store : <http://bit.ly/2sgKe83>

4. Kenya Labour Laws (Link to the Play Store : <http://goo.gl/p77qoi>)

This is a project by the **International Labour Organisation** with it's stackholders (COTU , FKR and the Government Of Kenya) . It aims to impact the general public with the Labour Laws in Kenya. The following is a video giving more details to the project :

<https://www.youtube.com/watch?v=OlzGXSaQVCs> . H.E President Uhuru Kenyatta talked about it :
<https://goo.gl/tnnzt9>

5. Giraffe Center AFEW <https://www.giraffecentretickets.co.ke/>

The Giraffe Centre is the creation of the African Fund for Endangered Wildlife (A.F.E.W. Kenya), a Kenyan non-profit organisation. In response to the measures by the Government set for the COVID-19 pandemic, the Centre saw it fit to have a way where the customers could be able to purchase tickets online. The Tour Operators were also to be in a position to make reservations for on-behalf of their clients in the form of Service Request Vouchers. This together with having a Donation Module to allow Donors make donations to the Centre. We implemented the Management System in the form of a Web Portal together with the Ticket Scanner Software.

6. TissBoda

TissBoda is the first of the app hailing services offered by Tiss Safaris Limited, that provides a safe, efficient and affordable way to “boda”.

User App : <https://bit.ly/3evawKH>

Driver App : <https://bit.ly/3iYr00E>

7. BradWill Cabs

This is a taxi hailing cab operating in Kisumu Kenya.

User App : <http://bit.ly/375IMJZ>

Driver App : <http://bit.ly/30ykCnZ>

8. Thanks In Advance

Thanks In Advance intends to be your most dependable wingman/woman whether you are looking to meet new people or create meaningful networks. Tia is deliberately easy to use because meeting new people should not be complicated.

Link to the App : <http://bit.ly/2leEKmj>

9. Magical Kenya App + Management Information System (<http://bit.ly/2ljzOSb>)

Magical Kenya is a brand by the **Kenya Tourism Board** that aims to attract prospective tourists who intend to visit Kenya. In an attempt for them to reach more people easily, we were commissioned to develop an Android , iOS Mobile Application together with a Management Information System.

Link to the App Store : <http://bit.ly/2ljzOSb>

10. Churchill Show App (40k+ Downloads)

Daniel "Churchill" Ndambuki is a Kenyan comedian who hosts the comedy TV show Churchill Show on NTV Kenya. Daniel Ndambuki has worked in the comedy industry since 1996 and has now become a household name in Kenya. Daniel Ndambuki launched the Churchill Live Comedy Show in September 2008 but was renamed Churchill Show during its third season in 2012. Users are able to Stream Exclusive Videos together with Buying Event Tickets using the Mobile and Web Application. This coupled with a USSD Code where a typical user Dials *483*82# to buy the tickets ensures almost all users get covered. Link to the Play Store : <http://bit.ly/2IBkq0C>

11. Nairobi County Standing Orders App.

In an attempt to be paperless , the Nairobi County saw it wise to digitize their Standing Orders and make them easily accessible both by the MCAs and the general public at large. We were commissioned to undertake the Project. Get the App at the Play Store here : <https://goo.gl/ArDCtP>

12. Manzili : <https://manzili.co.ke/>

Manzili is a property management system that allows property owners and letting agents bring out the full potential of their real estate portfolio. An easy way to make, receive, and process payments from residents. Monitor and report on property invoices and rent payments.

13. TranceWood Ltd <https://trancewood.com/> (ERP + Mobile App)

Trancewood Limited first made its mark since the year 2000 as a small production unit (under Trancewood Products) in modular kitchens, founded by Mr. & Mrs. Navin Vekaria. It was a pioneering venture that was to grow into a multi faceted organization through dedicated endeavor and industry. Trancewood wanted an ERP System that would enable them automate their business process from when a customer gets onboarded to when they finally get their furniture fitted. We also did a Mobile Application for their marketing executives which is able to assist them in their field work activities (customer registration and project mapping).

Link to App : <http://bit.ly/2shp1vs>

14. sPOS (Mobile App + Web Administration Portal)

sPOS is a Point of Sale made to allow anyone automate the way they handle sales. It is compatible with your already existing Android Device. This coupled with a Cloud Service that allows you to access sPOS from virtually anywhere.

Link to the Play Store : <https://goo.gl/FiFjkm> . As seen on KTN : https://youtu.be/c4fZV_a2ZaE (From 06:30 Minutes)

15. Quavatel : <http://www.quavatel.co.ke/> (Mobile App + Web Administration Portal)

Quavatel Ltd is a Turn-key optical fiber network deployment company based in Nairobi. They wanted to relay data from the field to the Headquarters together with managing projects, handling the wage bill (mobile payments to casual labourers) and report generation . We did a mobile and Web Portal (Management Information System). Link to the App : <http://bit.ly/31BZkG6>

16. Airtimenow : www.airtimenow.com (Web Administration Portal)

A website that allows users to purchase airtime for their phones or those and make payments online. This was on the fall of 2013 before other companies saw the potential in selling airtime online. Link to the website : www.airtimenow.com

17. Topline Marketing Management App : <http://bit.ly/2FDKQxL>

(Mobile App + Web Administration Portal)

Topline Group is an integrated marketing company registered in Kenya as of May, 6th 2010 and we support entrepreneurs expand their markets by integrating new ideas in the below-the-line and above-the-line elements of their marketing campaigns. Topline wanted a web based system to manage activities of their employees , setting and assigning tasks together with knowing where the personal is on the field (geo-tagging). The employees were awarded points/grades depending on how they perform on the tasks given and how prompt they report to an assigned location.

18. Anerlisa Weight Loss App : <http://bit.ly/2XYd0tg> (Mobile App + Web Administration Portal)

This Platform is for anyone who want to start living a healthy lifestyle, it is based on a subscription model of 30USD per year.

19. EaseLex App : <https://easelex.com/>

EaseLex is an online practice management solution developed to help lawyers create more productive, profitable and enjoyable law practices by offering various e-solutions to the day-to-day case management and planning

Link to the App : <http://bit.ly/2ltxowx>

20. BYOB

BYOB is the most convenient, price competitive, reliable way to order your favorite drink(s). In addition to your favorite wines, beers, ciders and spirits; BYOB also delivers soft drinks. Currently serving Nairobi. More locations coming soon!

Link to the App : <http://bit.ly/2KRjbLe>

21. PRIDE (Promotion of Rural Initiative and Development Enterprises)

Management Information Systems are used to collect , organize and analyze the data stored. I was able to develop a helpdesk system with a colleague for a micro-finance institution in Tanzania which incorporated most of the elements of a management information system. They included data collection where the clerks would submit request for services (tickets) which were relayed to the specified departments and it's phases were tracked i.e to know whether a particular ticket has been completed , assigned or revoked. The link to the above service is not available as the software was installed on their local LAN. However i have attached a recommendation letter from the organisation.

Web Design and Development Projects

Below is a list of websites we have developed in the recent past for some of our clients.

- <https://www.covid19kenya.org/>
- <http://magnivainternational.co.ke/>
- <http://camelplast.com/>
- <http://bankonme.co.ke/>
- <http://integrated-capital.co.ke/>
- <http://www.guinnesserealestateagents.co.ke/>
- <http://renafarm.co.ke/>
- <http://watergatehotelkilifi.com/>
- <https://sokohewani.com/>
- <http://kamusi.online/>
- <http://nailiapu.org/>
- <http://www.sayyarati.co.ke/>
- <http://cipit.strathmore.edu/>
- <https://ipateke.com/>

Network Design & Implementation

Full Network design and implementation is an addition to our work. We setup networks from Structured cabling, server installation, WIFI access.

We employ the use of industry accepted standards. For structured cabling we employ the use of Structured Cabling System. This forms the basis of the entire network in an institution. It constitutes;

- Ethernet IEEE 802.3 (For LAN connection, use of CAT 6A Cable for max throughput).
- Wireless LAN (Wifi - IEEE 802.11) - Solutions vary with various Vendors, We have worked with Cisco,Aruba,Rackus, Ubiquiti,TP Link.
- Digital Phones - IP phones- Avaya, Cisco,Polycom.
- Telecommunication Room - Central DC, Servers, Switches.
- Building Management - Installation of Aircon for the Telecommunication room.
- Security Camera - This is an added feature that couple present day Network Installation- IP camera - for ubiquitous access.
- Firewalls - Security is utmost Importance - We have worked with Checkpoint, Fortinet, Sophos,Cisco.

Recent Implementations

- Urgent Cargo K.B Sangini & Sons Office Networking,Voice
- Trancewood Limited - Structured Cabling : <http://trancewood.com/>
- Trance Towers - Structured Cabling, Security surveillance System : <http://trancetowers.com/>
- Lagos Hotel- Networking : <https://www.lagoshotel.co.ke/>
- Horizon Investments Structured Cabling and voice and maintenance.
